

Buddy's Creature Report

A real-facts nature card

You will need: a grown-up to read with

No. 2 The Grasshopper

1. A grasshopper's ears are on its belly, tucked under its wings.
2. It can jump ten to twenty times its own length.
3. It sings by rubbing a back leg against a wing.
4. Its back knees work like tiny springs. That is the secret of the big hop.

Buddy is a grasshopper, just like these!

How far can you hop? Try it and count.

Facts checked with the Forest Preserve District of Will County nature guide.

Collect them all - a new creature lands every so often. Ages 3-7.
